Mackall Recital

Owing to the fact that the first performance of the "Mascot" has been set for April 30, Mrs. Mackall has most considerably changed the date of her recital which had been announced for April 30 to Tuesday evening, the 28th. This change is made from no personal desire or Mrs. Mackall's part but because of the fact that many people have tickets for both the first performance of the opera and the song recital. The recital will therefore occur at the Alexander Young Hotel ball room Tuesday evening, April 28, 1908.

The Truth About Kidney Trouble

(SEDIMENT)

Sediment that can be seen with the unaided eye is not usually an evidence of a serious stage of kidney disease. It is a smoky appearance of the urine. Both of these symptoms are often found in people who are otherwise well, and they commonly disappear with the exciting cause. If the patient, within a week or two of its discovery, will diet, avoid colds, and live carefully. There are times in the lives of nearly all of us in which these symptoms have appeared and disappeared. If, however, they persist it should be given thoughtful consideration in view of the declarations of medical writers that about the sixth month inflammation of the kidneys becomes chronic and is then incurable. The best remedy having no treatment that will allay inflammation of the kidneys, physicians prescribe a diet, and possibly an eliminant, and if early enough it is quite likely to be effective. But the new discovery, Fulton's Renal Compound, the success of which is due to the fact that it is the first thing that always kidney inflammation, is effective to aid nature to throw off the inflammation in about 87 per cent of the cases in all stages. As the inflammation more readily yields the first few weeks of the formative period it is good judgment not to delay. If it has been unconsciously developing for some time and is in the chronic stage, there is nothing that will help at all except Fulton's Renal Compound, and even then the recovery will be slow.

HILAND ENTHUSES

(Continued from Page 1)
noon. "There are four people with me who intend to come here next year if they can get the money to pay their way."

"What you people need here is a steamship to make a trip to the islands from the Coast each week and bring the people down here to the most magnificent climate under the canopy. I tell you I mean that, about the climate, and I am going to advocate the steamship matter when I get home."

"There is another thing. I asked the people out here at the hotel what they would charge me for a season, next year. The rate was so reasonable that anyone should be able to pay it. If they are not able to pay it, they have not enough money to travel and ought to stay at home. Don't do as they do in some of the tourist towns of the Coast, size a man up and try to take all his money except just enough for him to get home. You certainly are not doing it now."

"This is a beautiful city and I am going to come back. It is indeed the most beautiful climate under the canopy."

Mr. Hiland and his associates have been to the Orient making arrangements for business connections in preparation for the time when the Chicago and Milwaukee line gets through to Seattle. Mr. Hiland said he had been very busy but could not give out the details of the arrangements that had been made. His line will have steamship connections to the Orient, but Hawaii is not figured in them except as Mr. Hiland may interest himself in his own proposal that Honolulu should have passenger ships coming in every week from the Coast.

There is no doubt of his enthusiasm for Hawaii.

JAPANESE IMMIGRATION

(Continued from Page 1)
23 years old. He graduated with honors from the Higher Commercial School of Tokyo and was subsequently appointed Vice Consul to Hawaii. He comes here with his wife, child and a servant. Consul and Madams Saito were at the wharf to meet him. The staff of the Japanese Consulate was also there and attended to the wants of the new arrivals.

Mr. and Mrs. Abe will in a few days look about for a home, where they intend to go housekeeping. The Japanese Consulate is pretty well filled up by the secretaries of the Consulate, and, according to Consul General Saito, there is no commodious apartment for the new Vice Consul. Mr. Abe, accompanied by Consul General Saito, will present his credentials to Acting Governor Motz-Smith, probably tomorrow on Saturday morning.

Hahn Looks For Weak Points

The coast line of Oahu, its weak and its strong points, are being made the subject of a minute study by Major Hahn who came here a short time ago to investigate and report on the matter of Hawaiian defenses. He started out along the O. R. & L. Co. line this morning by special train, it being his idea to follow the coast line as closely as possible.

While the strong points offered by the topography are occupying a great part of the Major's attention, he is devoting his principal energy at present to a study of the weak points, looking on the coast for the places which an enemy might be most likely to go to to effect a landing of troops and guns. One great point in favor of the islands from a defensive point of view is the fact that the coral reefs, which stretch almost entirely around the islands, form a natural barrier, which in most cases would prevent the landing of large bodies of men, except under the very most favorable circumstances, while in almost all cases the reefs and the shallowness of the lagoons would make it practically impossible for an enemy to land heavy artillery with which to attack the local forts from the rear or flanks. It is the points which are found to be unprotected by such natural advantages that the Major will devote particular attention to.

The band will play tomorrow evening at the park, corner of Wilder avenue and Punchou street.

Bert Bower was chosen umpire of the Honolulu Baseball League at a meeting at 12:15 today. No schedule was arranged.

HAWAII TO GET BETTER SERVICE

Superintendent Carr of the Railway mail service is at present engaged in placing into operation a system of changes in the mail routes on Hawaii, which will increase the service received by the residents of the Big Island. The first change, which went into effect yesterday, was made possible by the fact that the Mauna Kea makes faster time than the Kinai did on the Hilo route, reaching that city during Wednesday forenoon, in time to catch the train leaving for Glenwood at 2:15 p. m., while the Kinai did not arrive in time to make this train, and the mails for Glenwood and way points, the Volcano House and Kau towns was not sent from Hilo before Thursday morning. The change will enable the residents of the route from Hilo to Waikahua to get their mail from eight to ten hours earlier than heretofore.

Another change which will soon be placed into effect shortly will be the delivery of mail on the star routes from Kealahou to Hoopuloa during the daytime, while at present such delivery is made at night.

Finally another change will be made on the route from Kawaihine to Pali, via Kamuela, where mails will from May 1 be delivered twice a week instead of once a week as is now the case. This will also benefit the residents of Kono, whose service connects with the Kawaihine-Kailua route.

CAPT. SCHLEMMER TAKES UP TANNERY

Captain Max Schlemmer is going into the tannery business. This is the announcement made by the well-known King of Laysan this morning.

The name of the new tannery firm is Heine & Co. Captain Schlemmer is the "C. Co." The firm has arranged for the employment of Mr. Wagner, who is one of the most expert tanners in the country. He was brought up in the tannery business and at one time operated a tannery in Stockton. While Mr. Wagner is not a member of the company, Captain Schlemmer states that he will be treated as if he had a financial interest.

"It is probable that one more trip will be made to Laysan Island," said Captain Schlemmer. "This trip will be in charge of Captain Miller, and if I am not able to go myself I shall make everything over to Captain Miller, and I want to say that he treated me on my last trip better than any man in Honolulu has ever treated me before. The trip will probably be made in a couple of months."

"It is probable that a number of scientists will go to Laysan on this coming trip. I think Mr. Bonine, the moving-picture man, will go to get some pictures of the birds. A man from Philadelphia will probably be in the party and Dr. Schoening of Hilo, and probably some others."

Jockey Kough will do the riding for Barney Schreiber in future. The Misourian came to terms with the lad and he will do Barney's saddle work in the East.
